A 3-day course to enable Licensed Practitioners and above to deliver a Family Thrive programme to groups of parents and carers. This course is also suitable for Licensed Practitioners looking to convert to becoming a Thrive Trainer in the future.

Do you want to take your Thrive practice to the next level? Are you looking for ways to use Thrive to reach more of the children in your setting? Would you like to work more closely with parents and carers but lack the tools you need to do it?

If so, then Course Leader for Family Thrive could be the course for you. This intensive three-day blended learning course will equip you with the skills and resources you need to run a six-session Family Thrive programme for groups of parents and carers in your setting. The purpose of this programme is to share the key principles of the Thrive Approach with parents and carers in an accessible way so that they are better able to understand and support the work that you are doing in your setting. For this reason, the Family Thrive programme is particularly suitable for settings that have adopted a whole setting approach to Thrive.

Course format

During the course, you will learn about the content of the Family Thrive programme and how to deliver it effectively to groups of parents and carers. The course involves the following elements:

- E-learning module 1: During this three-hour e-learning module at the start of the course, you will have the opportunity to refresh your understanding of the Thrive theory and underpinning neuroscience.
- Days 1 and 2: During these two face-to-face days, you will explore the content of the Family Thrive programme, experience some of the group activities and practise presenting some of the theory and concepts of the Thrive Approach. You will also have the opportunity to develop your skills in group facilitation and explore some of the practical, logistical and administrative issues involved in running a Family Thrive programme.
- E-learning module 2: Between Days 2 and 3, you will complete a 30-minute e-learning module, which will prepare you for delivering Family Thrive in your setting.
- Day 3: On the final day of the course, you will be asked to complete a final assessment in which you will be running a Family Thrive programme activity for your peers. During this process, you will be assessed on your knowledge of the Thrive theory, your ability to deliver the materials, and your capacity to engage and contain the group. Upon successful completion of the assessment, you will emerge as a Thrive Course Leader, licensed to deliver the Family Thrive programme to groups of parents and carers.

Is this course for me?
